

Internal Combustion Counterbalance Forklift

HT20CT - HT32CT

4,000 - 6,500 lb. Capacity | Series 8962

- Self-Activating Parking Brake helps prevent operator misuse or negligence.
- Designed with enhanced stability with optimal center of gravity to help you confidently handle heavy loads.
- 5.6" Interactive Display provides critical information to the operator on the job, and helps your service technician complete diagnostics.
- 500-hour Oil Service Interval translates to more time working, and less time in the service bay.

STANDARD & OPTIONAL EQUIPMENT

Model/ Equipment		HT20CT - HT32CT
Standard Equipment	Rugged chassis	●
	Ford, LP Engine	●
	Oil Cooled Transmission with torque converter	●
	Three Pedal Control, Inching, Brake, Accelerator	●
	Force Cooled Wet Disc Brakes	●
	Directional Control On Steering Column	●
	30 Degree Adjustable Steering Column	●
	Cushion Tires	●
	Standard (max) Travel Speed Setting	●
	Standard Overhead Guard (82.9")	●
	High comfort, Full Suspension Seat	●
	Orange Seat Belt	●
	3 Individual Hydraulic Control Levers	●
	3-Function Hydraulic Valve	●
	Storage Tray	●
	Rear Grab Handle With Horn Button	●
	Comprehensive Color LCD Display	●
	Key Switch	●
	Two LED Work Lights	●
	Low mount, Horizontal Exhaust pipe	●
	Linde Colors, Red - Dark Grey	●
	2 Year Standard Warranty	●
Optional Equipment	Special Tires, Non-Marking, Treaded	○
	Simple, Dual, Triplex, Quad Masts	○
	Fork Carriage	○
	Hang-On Sideshifter	○
	Hang-On Sideshifting Fork Positioner	○
	Forks	○
	Load Backrest	○
	Low Overhead Guard	○
	Speed Limit	○
	Operator Fan	○
	Cloth Seat	○
	Internal Mirror	○
	Internal Panorama Mirror	○
	External Mirrors	○
	4-Function Hydraulic Valve	○
	Hydraulic Reeving	○
	Armrest Mini Levers	○
	Backup Alarm	○
	Backup Camera	○
	Flashing Beacon	○
	Hydraulic Accumulator	○
	Removable Radiator Screen	○
	Additional Air Filter	○
	Swing Down LP Bracket	○
	Additional Warranty	○

● Standard equipment

○ Optional equipment

ANSI: Standard truck meets all applicable mandatory requirements of ANSI/ISO B561 standards for powered industrial trucks.
 NOTE: Performance data may vary due to motor and system efficiency tolerances. The performance depicted represents nominal values obtained under typical operating conditions. Metric dimensions are in millimeters unless otherwise specified. All metric dimensions are not direct equivalents due to rounding data. The descriptions and specifications included on this data sheet were in effect at the time of printing. ICON North America Corporation reserves the right to make improvements and changes in specification or design without incurring obligation. Please check with your authorized LINDE dealer for information on possible updates or revisions.

CHARACTERISTICS

Real-Time Communication

Ergonomics

Massive Steel Frame

Rugged Drive Line

Industrial LP Engine

Low Maintenance

At 500 hours, this is among the best in the industry. Recommended daily check can be performed without removing any panels. Wet disc brakes ensure excellent truck control, without compromising low maintenance cost and effort. Confidence in the quality of the machine also allows Linde to offer standard 2-year or 4000-hour warranty.

Easy to Operate

The Linde HT20CT-HT32CT has a multitude of operator friendly features, including: spacious operator compartment, easy access to hydraulic levers, low noise and vibration levels, generous leg room, accessibility from both sides. For the driver, this means, precision operating at low fatigue level.

Visibility

The low-mounted propane tank and dashboard, combined with a clear view mast (peripheral view) increase all-around visibility. Excellent all-around visibility, together with low noise level and simple operation allow operators to stay alert and maintain unparalleled awareness of their surroundings. The surprisingly high residual capacity results in a very stable truck, adding to operator confidence level.

Low Fuel Consumption

With its impressive performance, the truck still maintains low fuel consumption and low exhaust emissions. State-of-the-art engine technology with multi-port fuel injection, timing chain, dual overhead cam maintains Tier 4f emission standards, without compromising fuel efficiency.

CHARACTERISTICS

Performance

- 4-Cylinder Dual Overhead Cam Design
- VVT (Variable Valve Timing)
- Sequential Multi-Port Fuel Injection
- Timing Chain-Driven Camshaft
- Side (Deck) Mounted Hydraulic Controls

Durability

- Force-Cooled Wet Disc Brakes
- Fully Welded Heavy Gauge Frame
- Nested I-Beam Upright
- 6-Roller Carriage
- External Side-thrust Rollers
- Proven Steer Axles and Cooling Systems

Convenient Interfaces

- 5.6" color display
- LED charge indicator light
- Easy-access charging port
- 5V USB charging port
- Full suspension vinyl driver's seat

Ergonomics

- Minimal Vibration / Noise via Balanced Engine and Isolated Transmission
- Adjustable Full-Suspension Seat
- Adjustable Steering Column with up to 30 degree Tilt
